HOMES THROUGH COMMUNITY PARTNERSHIP

**Opportunity Mapping:  
Greater Socio-Economic  
Equity Thru Data**

# Presentation Flow

## Agenda

- Opportunity Framework
- Central Texas Opportunity Maps
- Applying Opportunity Maps
- Q & A

**GREEN DOORS**

HOMES THROUGH COMMUNITY PARTNERSHIP

# Opportunity Framework

## Critical Questions

- What is opportunity mapping?
- What does it tell us at different levels of analysis? E.g., individual vs. systemic?
- Why does it matter? I.e., what problem is it trying to help us solve?

**GREEN DOORS**

HOMES THROUGH COMMUNITY PARTNERSHIP

# Opportunity Framework

## **What is opportunity mapping?**

- GIS mapping research tool used to understand the dynamics of “opportunity” within metropolitan areas
- An analysis of multiple socio-economic indicators to create a comprehensive opportunity index
- Breaks census tracts into quintiles to distinguish between various opportunity levels
- Requires assessment of local indicators of opportunity
- Developed by the Kirwan Institute and implemented in over 25 different regions across US

**GREEN DOORS**

HOMES THROUGH COMMUNITY PARTNERSHIP

# Opportunity Framework

## What is opportunity mapping?

- Basic Premise: residents of a metropolitan area are situated within an interconnected web of opportunities that shape their quality of life
- Where you live fundamentally shapes your life prospects
- While individual characteristics matter, so does access to opportunity

*Old Real Estate Motto – Location, Location, Location!*

**GREEN DOORS**

HOMES THROUGH COMMUNITY PARTNERSHIP

# Opportunity Framework

## **What is opportunity mapping telling us?**

- Depends....on the level of analysis
  - ✓ Individual vs. institutional vs. structural vs. global
- What does it tell us about the web of opportunity for a child living off Rundburg Lane vs. Tarrytown?
- What does it tell us about residential and school segregation in different parts of Austin?

*Income and asset inequality, as well as resource allocation, have a geographic footprint*

**GREEN DOORS**

# Opportunity Framework

## Yet Another Tale of Two Cities

### Child Living in Rundburg

- Key Socio-Economic Indicators
  - ✓ Student Poverty Rate – 97%
  - ✓ Student-Teacher Ratio – 30:1
  - ✓ Unemployment Rate – 12%
  - ✓ MHI - \$34,145
  - ✓ Poverty Rate – 25%
  - ✓ Median Home Value - \$157K
  - ✓ Crime – 140 crimes reported

### Child Living in Tarrytown

- Key Socio-Economic Indicators
  - ✓ Student Poverty Rate – 3%
  - ✓ Student-Teacher Ratio – 17:1
  - ✓ Unemployment Rate – 2%
  - ✓ MHI - \$248,203
  - ✓ Poverty Rate – 3%
  - ✓ Median Home Value - \$1M
  - ✓ Crime 44 crimes reported

**GREEN DOORS**

HOMES THROUGH COMMUNITY PARTNERSHIP

# Opportunity Framework

## Why does it matter?

- Access to opportunity is a determinative driver of life outcomes and **location** – i.e., where you live – shapes that access
- Everyone should have fair access to the critical opportunity structures needed to succeed in life

*If you care about socio-economic equity, you care about access to opportunity*

**GREEN DOORS**

HOMES THROUGH COMMUNITY PARTNERSHIP

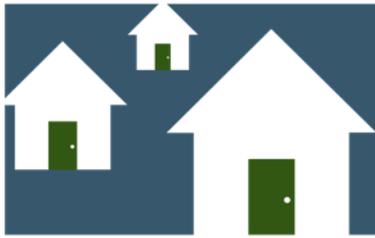

# Central Texas Opportunity Maps

## **Green Doors' Opportunity Mapping Initiative**

- Mapping initiative focused on how opportunity is spatially distributed in Central Texas
- Opportunity in terms of housing, public health, public education, and economic mobility
- Partnership with Kirwan Institute
- Launched in Summer 2006
- 15 collaborating organizations

is spatially  
and racially  
segregated in  
Central  
Texas

# Central Texas Opportunity Maps

## **What did the 2006 maps tell us?**

- Confirmed what most folks already knew/suspected
- Austin's "Crescent of Inequality"
- Notable differences between urban and rural contexts
- Disproportionate negative impact on communities of color, especially African American & Latino children

**GREEN DOORS**

HOMES THROUGH COMMUNITY PARTNERSHIP

# Central Texas Opportunity Maps

## 2012 Opportunity Indicators

### Education

- Adult Educational Attainment
- Student Poverty
- Student/Teacher Ratio
- School Reading Proficiency Rate
- School Math Proficiency Rate
- High School Graduation Rate
- Enrollment Rate

### Economics & Mobility

- Unemployment Rate
- Jobs Within 5 Miles
- Mean Commute Time
- Transit Access
- Median Household Income

### Housing & Environment Conditions

- Neighborhood Poverty Rate
- Vacancy Rate
- Proximity to Parks
- Proximity to Toxic Release Sites
- Proximity to Brownfields
- Crime Index
- Food Deserts
- Proximity to Health Care Facilities

**GREEN DOORS**

HOMES THROUGH COMMUNITY PARTNERSHIP

Opportunity  
is still  
spatially and  
racially  
segregated in  
Central  
Texas

**See map handouts...**

# Central Texas Opportunity Maps

## **What do the 2012 maps tell us?**

- Austin's "Crescent of Inequality" is still very stark
- Opportunity appears to be accruing even more so in the western parts of the city and region
- Disproportionate negative impact on communities of color, especially African American & Latino children

**GREEN DOORS**

HOMES THROUGH COMMUNITY PARTNERSHIP

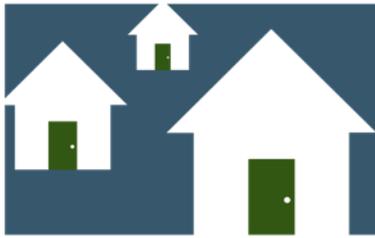

# Applying Opportunity Maps

## **How have maps been used in other communities?**

- Allocating money for affordable housing in high opportunity areas
- Assisting voucher holders with residential searches
- Targeting “adopt-a-zip code” program efforts
- Prioritizing transportation investments

**GREEN DOORS**

HOMES THROUGH COMMUNITY PARTNERSHIP

# Applying Opportunity Maps

## **How should we think about using them?**

- Understanding and communicating about the opportunity landscape
- Community goal setting
- Siting resources, investments, and programming
- Policy analysis and review

**GREEN DOORS**

HOMES THROUGH COMMUNITY PARTNERSHIP

# Applying Opportunity Maps

## **Prospective applications for 2012 Central Texas maps**

- City of Austin: using maps as part of AHFC's scoring criteria for its affordable housing investments (current)
- HACA: sharing opportunity maps with voucher-holders & landlords
- Travis County: using maps to inform social service and affordable housing investments
- CAMPO: using maps to inform transportation infrastructure investments
- CapCOG: using maps as part of regional AI study

**GREEN DOORS**

HOMES THROUGH COMMUNITY PARTNERSHIP

# Applying Opportunity Maps

## **Other local possible applications**

- City of Austin (Capital Planning Office): using maps as part of evaluation criteria for city infrastructure investments
- Identify 10 worst census tracts/neighborhoods in Austin (for opportunity) and target resources more strategically
- Democratizing the data should allow public entities, community members, and others to apply in a myriad of ways currently not considered?
